

**Overview:**

This quick reference guide describes the process for entering change/corrected proposal into Kuali Coeus. These types include:

- **New Changed/Corrected** – use only with Grants.gov submissions to correct or amend a “New” proposal
- **Renewal Changed/Corrected** – use only with Grants.gov submissions to correct or amend a “Renewal” proposal
- **Resubmission Changed/Corrected** – use only with Grants.gov submissions to correct or amend a “Resubmission” proposal
- **Supplement Changed/Corrected** – use only with Grants.gov submissions to correct or amend a “Supplement” proposal

**Notes:**

The use of Changed/Corrected for Submission Type is dependent upon the *Proposal Type* you are amending, and **only for Grants.gov submissions to Federal Sponsors.**

Changed/Corrected is only to be used to amend a prior submission that had an error at Grants.gov.

However, if you wish to **increase or decrease** an existing award, you would use the *Proposal Type Supplement*. Please use the Proposal Type per the Sponsor’s instructions.

**Please** refer to the **KC Proposal Types Quickcard** with any questions about which proposal type is appropriate:

<http://kc.mit.edu/sites/kc/files/uploads/kuali-coeusproposal-types-quick-reference-guide-2015-11-24.pdf>

If this is a Resubmission of a previously **unfunded** application to NIH or other Federal Sponsor, your *Proposal Type* on the general info screen of Kuali Coeus should be "Resubmission", and on the Grants.gov window you should go with the default Submission Type of "Application".

If this description is not the case for an NIH proposal you are working on, for additional guidance please refer to the NIH SF424 Application Guide which contains detailed instructions on which proposal type to use, refer to the FAQs at the [NIH Electronic Submission](#) website, or consult with your RAS Contract Administrator.

**Procedure:**

1. Navigate to the **Proposal Lookup** screen and enter your search criteria to find the proposal that needs to be amended.
