

Overview:

New Proposal Types were implemented November 2014 to accommodate the variety of proposal submissions to Sponsors. Selecting the correct proposal type in your Kuali Coeus proposal ensures all appropriate information will be included with your proposal upon submission to the Sponsor. To help make the correct selection, first ask if this proposal is in response to an existing award at MIT:

Is this for an existing award?			
Yes		No	
Progress Report		New	New Changed/ Corrected
Supplement	Supplement Changed/Corrected	Budget – SOW Update	
Renewal	Renewal Changed/Corrected	Resubmission	Resubmission Changed/ Corrected
Task Order			

Once you have made this determination, use the chart below to determine the exact proposal type to use, along with which information is required or not required for this proposal. **As with all proposals, following Sponsors instructions for your specific proposal:**
